## A LETTER FROM THE PRESIDENT

*KERMIT HOBBS, PRESIDENT*

As my time as the acting President of the Suffolk Foundation draws to a close, I am honored to speak to the accomplishments of this organization during the challenging year that was 2020. We began the year with a record-breaking asset total of \$10.1 million dollars and an overwhelming feeling of optimism regarding the year to come. The Suffolk Foundation has a history of being responsive to the needs of our community through the distribution of Community Impact Grants that serve health and human need nonprofit organizations. This year, we rose to the challenge of responding to the challenges of a global pandemic by increasing the number of community grants awarded, as well as awarding additional grants through the Disaster Relief Fund.

When the pandemic shut down was ordered in March, the optimism with which we began our year turned into a determination to meet the needs of our community. At the beginning of April, we offered for our current Community Impact grantees to repurpose their funds in anticipation of changing needs. We then reactivated the Disaster Relief Fund and immediately granted \$23,650 to COVID-19 relief. Following the immediate COVID response, scholarships were awarded in excess of \$41,000 and the Audrey Butler Memorial Scholarship and James M. Blair Memorial Scholarship were established.

While the Suffolk Foundation managed to exceed the amount of funds donated from the year prior, we anticipate a growing need in the coming year due to long lasting impacts of COVID-19. Thanks to our community-minded donors, we ended the year with an asset total of \$11.1 million dollars, even in the face of these difficulties. The Suffolk Foundation continues to be a vehicle of change for Suffolk and the surrounding areas, and we invite you to join our mission to meet the needs of our community in perpetuity.

# GRANTS & SCHOLARSHIPS

In 2020, the Suffolk Foundation granted over \$144,000 to 30 nonprofit organizations through Community Impact grants. Additionally, another \$49,000 was distributed through Disaster Relief grants during the COVID-19 pandemic. These funds supported nonprofit work in the areas of human needs, health, cultural arts, education, and environmental programs.

In the spring, the Suffolk Foundation awarded over \$41,000 in scholarships to 13 high school seniors. The organization also had a chance to catch up with Liza Bart Dolan, a former scholarship recipient.

Eight years ago, Liza Bart was awarded the Howard D. Mast Scholarship for her excellent character, community involvement, and participation in field hockey, lacrosse and track at Nansemond-Suffolk Academy. After her graduation in 2012, she attended the University of Richmond. In 2016, she graduated cum laude with a major in Political Science, Philosophy, Economics and Law. Inspired to work in the political world, she joined the Koch Associate Program at the Mercatus Center at George Mason. She then earned a Masters in Public Policy and Administration from Northwestern University.

**"THE HOWARD D. MAST SCHOLARSHIP ALLOWED ME TO GO TO A SCHOOL THAT WOULD SET ME UP FOR SUCCESS LATER IN LIFE."**

**-LIZA BART DOLAN**

After spending some time on Captiol Hill with House Representative Scott Taylor, she joined Facebook as part of their politics and government policy team. Liza Bart attributes her success, in part, to the opportunities made available to her through the support of the Mast Scholarship. She expresses her sincere gratitude for all of those who make the scholarship possible. The Suffolk Foundation is honored that we could be a part of Liza Bart's journey, and look forward to being a stepping stone for many students like her to succeed in college and beyond.
